

ANALEMMA

2017 OAK RIDGE CHARDONNAY

TASTING NOTES:	A brilliant pale straw color leads into focused notes of lemon chiffon and wet stone. This wine exhibits pure alpine qualities of freshness, palate cleansing acidity, varietal aromas and a saline minerality that begs for another sip.
APPELLATION:	Columbia Gorge AVA
HARVEST:	September 8 & 22
MATURATION:	Gently whole cluster pressed and settled briefly before being racked into barrel where it underwent a long, cool ferment. Matured on fine lees for 13 months in concrete and various formats of neutral oak. Transferred to stainless steel for 3 months before bottling.
PRODUCTION:	200 cases
ALCOHOL:	13.3%
BOTTLE PRICE:	\$36

Oak Ridge Vineyard

Nestled in the shadow of Mount Adams, Oak Ridge Vineyard has been deepening its roots since 1984. Analemma co-farms the site with owners Thomas and Marlene Woodward by assisting with key farming activities throughout the season. Our involvement allows us to keep in close touch with the fruit's maturity and to harvest at the precise time in order to achieve the natural balance of acidity, sugar, and flavors. The vineyard is organically certified and dry farmed. Despite close proximity to Atavus Vineyard, at similar elevation and also a southern aspect, the Oak Ridge Vineyard brings different vine clonal material, soil type and cultural practices that account for the differences between the wines.

Our Philosophy

As a grower and wine producer, our primary goal is to produce fruit of individuality that reflects the place in which it is grown. We believe this is best achieved by eschewing conventional farming approaches that depend on the use of synthetic herbicides and fungicides. Our vineyards and orchards are regeneratively farmed using organic and biodynamic methods that encourage life and health.

In the cellar, we work methodically to minimize fingerprints on the wines such as oxygen, heavy oak, and the effects of filtering. Through deliberate handling we strive to capture the essence of each of the vineyards that we farm, creating a window into the site's soil, microclimate and culture.
